

**AUTOMATIC FABRIC TUBE FOLDING & EDGE STITCHING MACHINE
(ESPECIALLY FOR , SPANDEX, LYCRA AND ELASTOMERIC FABRICS)
(PLC WITH HMI FEATHER TOUCH PANEL)**

MODEL NO: HFI-R-46H

(Suitable For Open knitted Fabric's)

De-Threading

Colour LCD Feather Touch Screen

**Stitching Machine
(Kansai-Japan)**

**Electrical Panel Board
With PLC**

**Edge Curling Remove Coil
Roll Unit**

Usage:

The Offered Machine Is Suitable For Stitching Specially Knitted Fabrics, Spandex, Lycra And Shearing Fabrics Which Need Folding And Stitching Before Dyeing Process After Pre-setting. Our Offered Machine Is Precisely Engineered Using Premium Grade Components And Ultra-modern Techniques At Our Vendor's End.

Special Features:

- ★ Infrared Sensors(2800mm), Automatically Tracking The Fabric Edge While Folding And Sewing.
- ★ Automatic Centering Device For Fabric Entry With Expanding Rollers.
- ★ Frequency Inverter And PLC Control For More Stable Operation Imported Sewing Head (kansai Brand).

Technical Data:

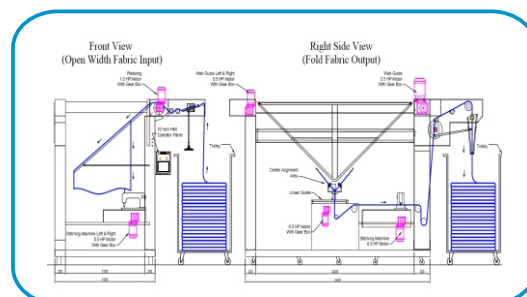

Power supply	220v /50-60 Hz
Doubling Speed	0 - 80m/min
Sewing Speed	0 - 30m/min
Fabric Width	1.2 - 2.2 meters
Needle Distance	1 - 5mm (adjustable)
Dimensions(LXWXH)	4750X3250X3000mm
Motor details	1 Hp / 0.75 Kw / 4 Pole - 2 No, 0.25Hp- 3 No's 0.5 Hp / 0.3kw / 4 pole-8 No
Drive	AC Drive 1.5kw - 1No's AC Drive 0.75kw- 2No's, AC Drive 0.4kw-9No's
